LEARNING MANAGEMENT SYSTEM
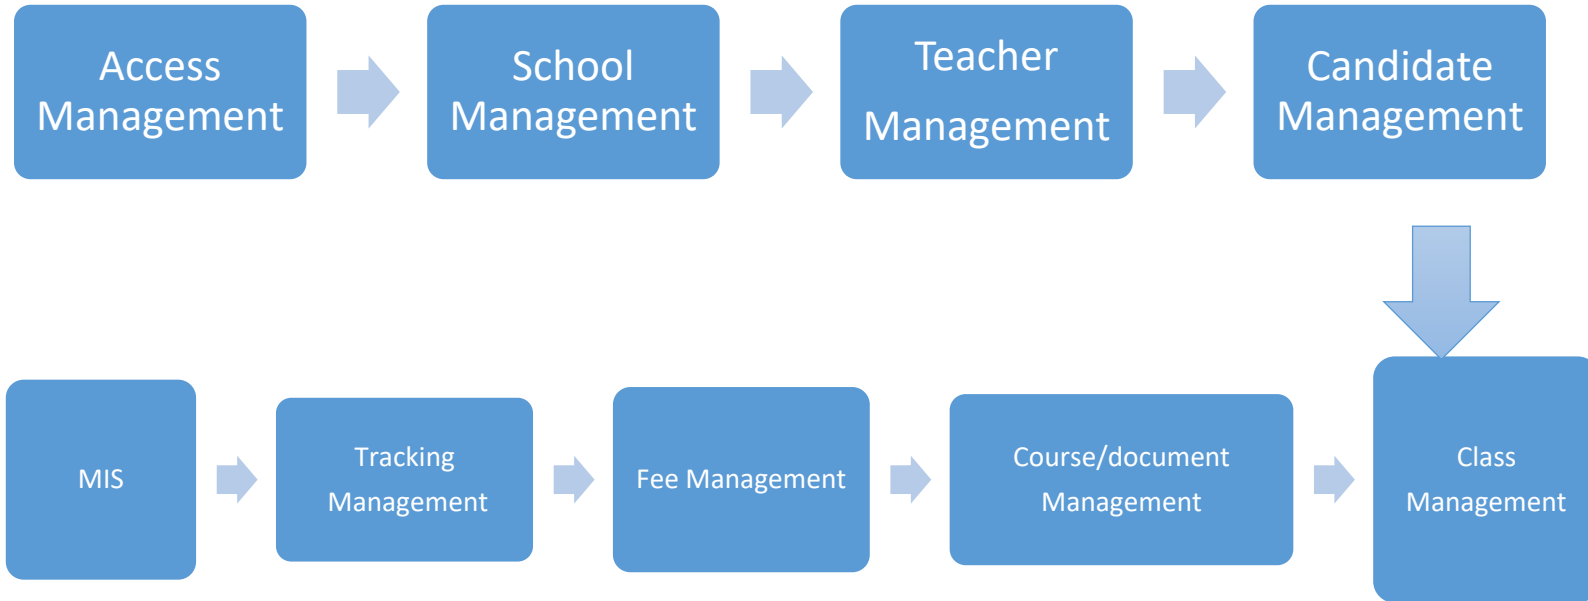

Why Digi E-Skiskha

With this learning management system for schools, teachers have the free hand to be creative in lesson planning, pedagogy and conducting online classes with one-of-a-kind features like Lesson Plan Manager and Digital Content Management among others.

Relevant digital content, notes, visual diagrams, web links, etc. can be easily shared with students to meet their multisensory learning needs and enhance their unique learning abilities. Teachers can easily paste and share appropriate content from authentic resources saving time.

Features:

- ✓ Digital Content Creator with Content and Format Replicator
- ✓ Notes and Documents Uploader
- ✓ Media Gallery & Web Resources Sharing
- ✓ Live Events / Meeting Scheduler with link sharing
- ✓ Live Discussions & Monitoring
- ✓ Lesson Plan Manager with Approval Mechanism
- ✓ The IT Solution, Digi E-Skiskha, is ready for deployment and gives the power in your hands to ensure smooth execution of projects.
- ✓ It generates reports not only for monitoring & control but also for analysis of the performance of entities involved.
- ✓ It allows complete control over the process and enforces the integrity of data recorded into the system.
- ✓ PORTAL is having complete workflow processes & data analysis.
- ✓ PORTAL can be used for other projects with little modification.

```
Access          School          Teacher         Candidate
Management  →   Management  →   Management  →   Management
                                                     ↓
MIS  →  Tracking   →  Fee Management  →  Course/document  →  Class
        Management                        Management         Management
```

Student Management System

Pre-Admission & Admission Management

Secure Student Information Storage

Detailed Student File with Custom Remarks

Assignment & Grading Management

Recruitment & Placement Management
